

Original surf art. Built for walls, shops and the street.

Spitting Barrels is Joshua Webb's Los Angeles surf-art line - expressive barrel waves, tucked suns, tiki roots and the Venom Break snake-wave.

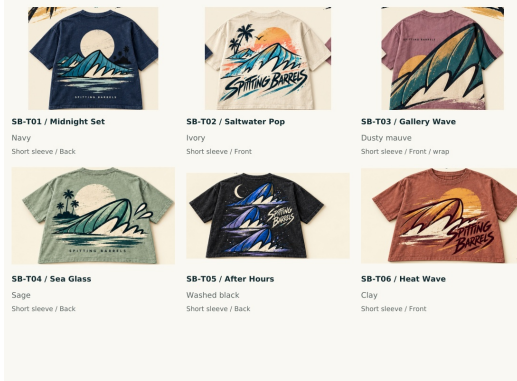

[APPAREL](#)[MURALS](#)[ORIGINAL ART](#)

Wholesale / capsules / mural commissions

A fresh visual system that can live on a T-shirt, an embroidered cap, a storefront wall, a canvas or a locally activated retail launch.

One visual language. Three ways to work together.

APPAREL

Artist-led graphic tees, embroidered surf caps and limited capsules built from Joshua's original wave drawings. Proposed blanks, colorways, quantities and pricing are confirmed before ordering.

MURALS

Custom single-wall murals, storefront activations and larger facade concepts. Each wall is adapted to the surface, viewing distance, budget and painting schedule.

ARTWORK

Original paintings, commissioned canvases and limited art editions that connect the retail space to the apparel collection.

Every opportunity is scoped in writing. Physical samples, wholesale pricing, delivery dates, territory, exclusivity and reproduction rights are confirmed before production.

A focused first assortment.

The opening direction combines the original barrel-wave identity with Golden Break, Venom Break II and selected second-generation graphics. The recommended start is a small approved capsule rather than an oversized first order.

PROPOSED PRODUCT DIRECTION

Relaxed cotton tees / limited colorways / approved physical samples / front, back or sleeve placements by design. Final blanks, fabric weight, size run, print method, minimums and wholesale terms remain open until quoted.

Two characters that define the line.

GOLDEN BREAK

The clean daytime signature: illustrated barrels, tucked ochre sun and bone/charcoal garment directions.

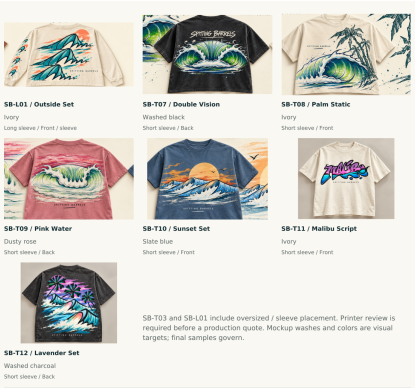

VENOM BREAK II

The more aggressive recurring character: a snake-wave hybrid designed to read on both light and dark garments.

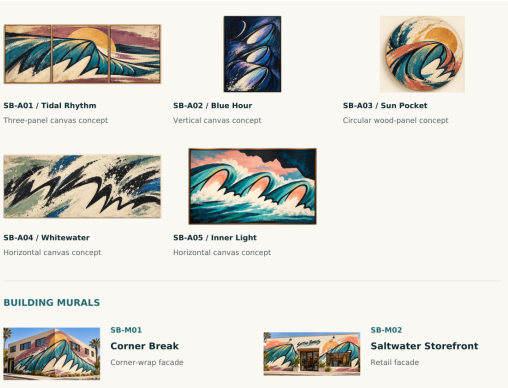

Development artwork is shown for discussion. A printer confirms separations, underbase, ink count, placement and production files after the garment and print method are approved.

More graphics, flat art and wall directions.

The collection can shift from quiet, minimal wave forms to bolder tiki and venom characters while keeping the same recognizable Spitting Barrels hand.

A small opening order from approved Spitting Barrels designs. Confirm samples, size run, quantities, delivery window, payment terms and reorder process.

02 / LIMITED SHOP CAPSULE

A co-branded or store-specific colorway, placement or small graphic edit. Exclusivity is limited by product, territory, channel and time.

03 / MURAL + RETAIL LAUNCH

A commissioned wall or storefront activation paired with selected apparel, original art and campaign content for an in-store moment.

04 / ARTIST COLLABORATION

A deeper design relationship with an established surf company. Structure can include a design fee, defined royalties, production support and a limited license to approved artwork.

ALSO AVAILABLE
